

# WE DELIVER

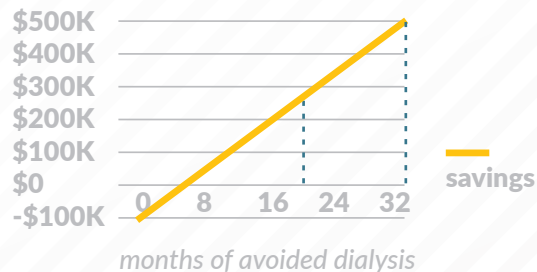

- » Transplants sooner (avoid 3-5 year wait times)
- » Less (or no) time on dialysis
- » Better managed patients
- » Employees whose lives are transformed – more productive and longer life expectancy
- » Lower costs for employers

# OUR APPROACH

- » Early intervention of kidney failure patients
- » Kidney disease coordinator to go along side of patient
- » Partner with patient and their doctor
- » Use transplant centers with short waiting times
- » Expedite referrals and evaluations
- » Extensive living donor search

# EMPLOYER SAVINGS

## Expediting Transplant Saves Months of Dialysis Costs

- » Employers pay first 33 months of dialysis costs
- » Monthly dialysis costs are approximately \$20k\* per month; 33 months of dialysis costs: \$600k+
- » A kidney transplant cost: \$100k\*
- » It only takes 5 to 6 months of avoided dialysis to payback cost of the transplant

- » **Example 1:** transplant occurs before dialysis begins avoiding 33 months of dialysis: Saving \$500k+ (netting transplant cost)
- » **Example 2:** transplant occurs month 13 of dialysis avoiding 20 months of dialysis: Savings \$260k

\*U.S. average cost

REJUVENATE  
KIDNEY TRANSPLANT SOLUTIONS

# ACTUAL CLIENT RESULTS

## Prior to Rejuvenate Healthcare:

- » 16,200 covered lives
- » 0.8 transplants per year
